

## YZC3 DOUBLE DRUM VIBRATORY ROLLER

### Application:

Compacting and repairing the general road base and asphalt pavement in city road, inter-city and township road, water conservancy project, sports and other industrial site and so on.

### Main features:

1. Mechanical drive, two-speed gears;
2. Hydraulic vibration, great exciting force with high compaction efficiency;
3. Hydraulic steering, articulated frame with flexible operation;
4. Equipped with natural water spraying system, anti-corrosive water tank;
5. Electronic control pressurized water spraying system is optional;
6. A trailer is provided for convenient transportation.

### Technical parameters:

Item	Unit	YZC3
Operating Weight	kg	3000
Rolling width	mm	1000
Vibration frequency	Hz	50
Theoretical amplitude of vibration	mm	0.58
Exciting force	KN	35
Travel speed	km/h	2.0/5.6
Engine model		ZN390B
Engine power/speed	Kw/r/min	26.5/2400
Overall dimensions(L*W*H)	mm	3020×1320×2460
